Tyrrell Flooring is one of London's oldest flooring contractors

We work with construction companies, architects, surveyors, designers and project managers to offer expertise and knowledge on all aspects of commercial flooring installation and floor coverings. We provide a comprehensive design, supply, preparation and installation service to design and build contractors as well as end user clients.

Established in 1960, Tyrrell Flooring has earned its long standing reputation for quality workmanship and reliability with many of the major regional and national construction companies.

Family owned and run, we share family values; we care about you, each other and what we do. We're passionate about providing exceptional client service and you can count on us to deliver to consistently high standards, on time and on budget.

“ No matter how big or small Tyrrell Flooring always manage to deliver on time. They are flexible and adaptable and I would highly recommend them to anyone looking for a team of people that are fully dedicated to the needs of the customer. ”

- BAM Facilities Management

Since our establishment in 1960 we have become experts in floor covering solutions

With so many years of experience under our belt, we have a wealth of knowledge and expertise at our fingertips and have supplied floor covering solutions in a variety of sectors including government, retail, hospitality, education, and office fit out.

Despite the obvious growth and success of the company, the ethos and goals are the same today as they were back then. We still retain the close-knit family environment feel with everyone working together to ensure our clients have a hassle free experience.

Tyrrell Flooring was established in Hackney, East London by Ron Tyrrell, focussing predominantly on providing commercial flooring solutions.

Tyrrell Flooring was passed through the family to the second generation, Clive Tyrrell who continues to work in the business today. The company continued to grow and secured contracts with the Property Service Agency (PSA), equipping and maintaining a wide range of buildings and installations for government departments.

The third generation, Joe Tyrrell joined the business, maintaining the family heritage and values of Tyrrell Flooring. In recent years, the business has embraced new products and technology to evolve with the changing market place.

Tyrrell Flooring, focuses on increased growth. Having recently re-branded, the business continues to cement its position in the market place, maintaining relationships with manufacturers, contractors and clients.

We provide a personal service across the entire lifecycle of your flooring solution

From design and procurement through to installation and ongoing maintenance, we can support you in creating the required flooring solution you desire.

Specification Advice

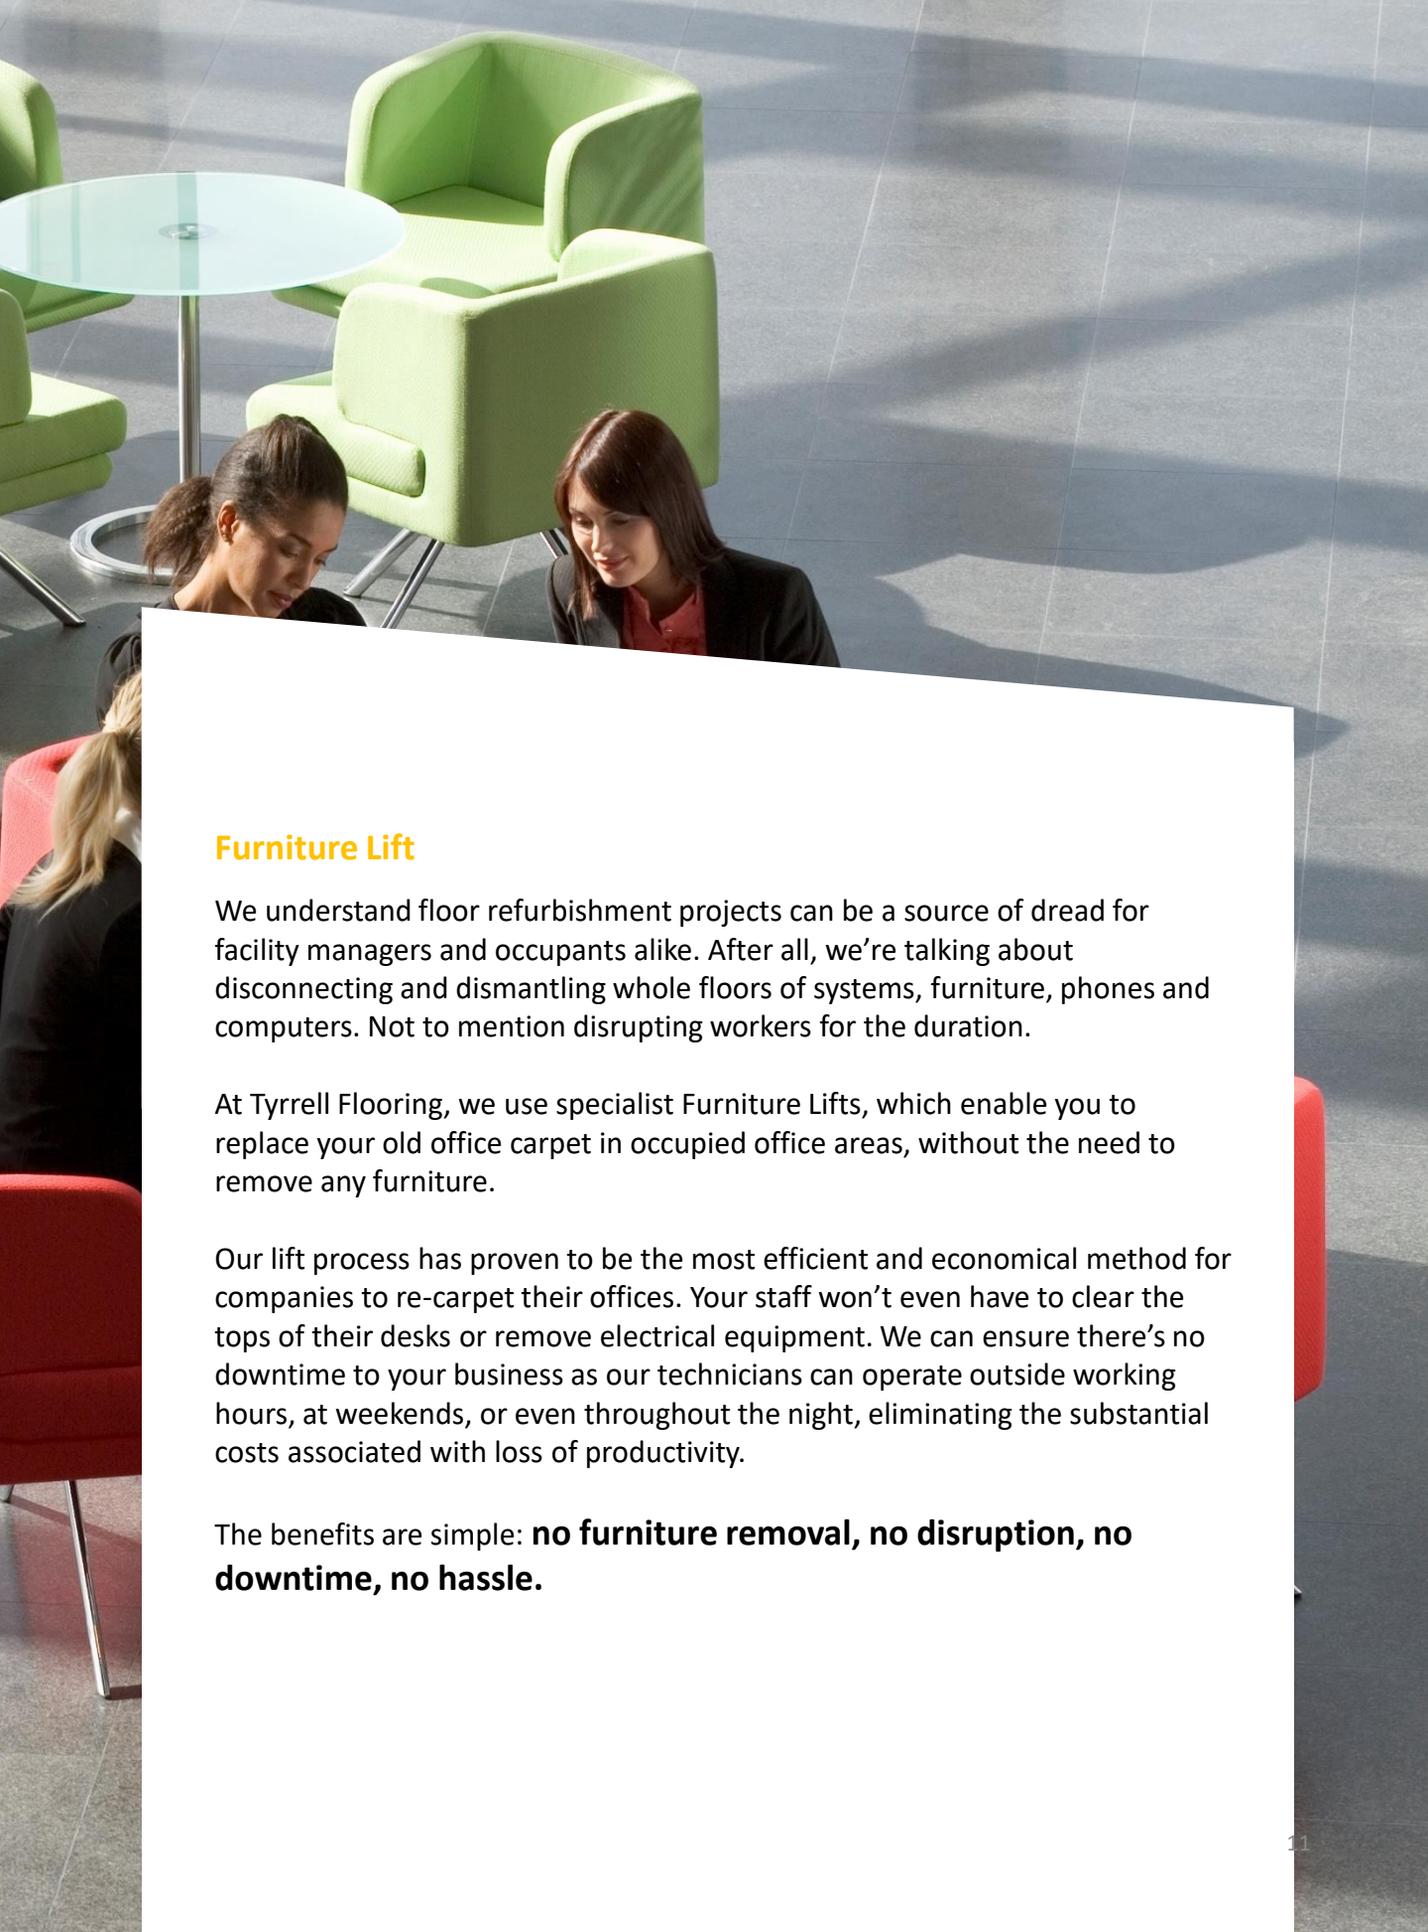

Flooring needs to be beautiful and add a sense of personality to a space but it also needs to be very practical so it can meet the demands of the customer and keep them safe. By their very nature, floors are subject to the most use and therefore need to be able to stand up to knocks, spills and furniture not to mention human or animal traffic.

With over 50 years of experience in the industry, we know flooring and have great relationships with our suppliers. So whether you are an architect, main contractor or corporate client we can provide independent advice to help you make the right decision for your flooring solution.

Supply and Install

Construction projects are complex due to being made up of many interconnecting parts. We understand these complexities, which is why at the heart of our success is our dedication to developing enduring partnerships with suppliers, contractors, clients and other trades.

We know how to work flexibly and have managers certified as Prince 2 and Agile Practitioners. We understand the need to be proactive and solve problems which can arise even with the most rigorous planning. So we'll work with you and with other trades on site to safely deliver unforgettable flooring solutions on time and on budget.

Furniture Lift

We understand floor refurbishment projects can be a source of dread for facility managers and occupants alike. After all, we're talking about disconnecting and dismantling whole floors of systems, furniture, phones and computers. Not to mention disrupting workers for the duration.

At Tyrrell Flooring, we use specialist Furniture Lifts, which enable you to replace your old office carpet in occupied office areas, without the need to remove any furniture.

Our lift process has proven to be the most efficient and economical method for companies to re-carpet their offices. Your staff won't even have to clear the tops of their desks or remove electrical equipment. We can ensure there's no downtime to your business as our technicians can operate outside working hours, at weekends, or even throughout the night, eliminating the substantial costs associated with loss of productivity.

The benefits are simple: **no furniture removal, no disruption, no downtime, no hassle.**

Post Installation Cleaning and Maintenance

Your floor is a major investment and therefore needs to be looked after. We offer a maintenance service to protect, clean or restore the surfaces of your floors. Our services will ensure that your floors remain protected with the minimum disruption to your daily operations.

Independent of any manufacturer, we can use the most effective products on the market to get the best possible results. By working with us, you will have peace of mind that your floor will look great for years to come.

Collaboration is key to our success so have a look at just some of the suppliers we work with:

**You can count on us to
keep your flooring in top
condition**

Welcome to Tyrrell Plus

Tyrrell Plus is your personalised online Operations & Maintenance manual. Here you can find all of the information you need to ensure your floor looks great for years to come.

As a client, you will be sent a link to a personalised webpage where you can securely log in to review your operations and maintenance information, order samples and replacement products, or request maintenance advice.

Your flooring is important to us, so this is all part of the Tyrrell Flooring service.

The unique combination of what we do and how we do it sets us apart in the market

The unique combination of our technical expertise and our values differentiates us in the market. Tyrrell Flooring is recognised as a leading flooring contractor with a **wealth of experience**. At the heart of our success is our dedication to developing **enduring partnerships with contractors and clients**. Our clients' needs are our first priority and therefore all of our clients have direct access to our Directors 24/7.

Tyrrell Flooring believes that success starts with great people. We deliver exceptional client service with lasting relationships built on **trust, honesty and integrity** and we do it with great people who know how to work as a team.

We work in a challenging and potentially hazardous industry, and are **committed to excellence** in everything we do through the systematic and disciplined management of our operations.

We live by the rules and standards we set for our company. We commit to quality outcomes for our clients, continually learn and improve what we do and if something is not right, we fix it.

Our commitment to quality is embedded in who we are and in everything we do. For over 50 years, we have demonstrated the strength of our **practical knowledge from the bottom to the top of the organisation**. This ingrained technical understanding helps in both problem solving capability and generating in house design solutions.

Drawing on significant industry knowledge, deep technical skills and extensive experience, we can create a **tailored and collaborative approach to support all of your flooring needs**. From supply, installation and maintenance to independent, technical and practical advice, you can rely on us to deliver successful flooring solutions.

Everything we do, we do **safely**

We believe that all harm is preventable so our aim is Zero Harm. That means providing healthy workplaces that are safe for all, a strong focus on wellbeing, and taking positive action to ensure the public are not harmed by our operations.

Our current policy and practice is to not just adhere to the current health & safety legislation, but to exceed these standards and promote the safest possible environment for all of our staff.

Tyrrell Flooring has achieved CHAS accreditation and all site staff and operatives are trained in safe working practices and carry CSCS cards. We also have stringent systems in place to ensure that documentation such as method statements and risk assessments are completed efficiently and strict inductions and 'tool box' talks are undertaken regularly on site.

“ We are absolutely committed to delivering projects safely wherever we work, and in doing so, safeguarding the environment for future generations. ”
- Managing Director of Tyrrell Flooring

From 1960 to the present day, Tyrrell Flooring has taken pride in the **quality** of its service

We work your way. We work tirelessly to meet our client's requirements and to deliver what we said we would, on time and on budget. That means working closely with you and teams of consultants including architects and project managers to ensure everything goes smoothly.

With over 50 years of experience we have learned what works well and what doesn't. We take the pursuit of quality very seriously and as such we work towards ISO9001 standards. Our strict quality procedures are constantly monitored to ensure that our clients can be confident that Tyrrell Flooring will deliver a quality project.

Don't just take our word for it though. We have been vetted by and are members of the Contract Flooring Association (CFA), who promote established quality companies offering the highest standards of installation.

“ We have worked together with Tyrrell Flooring for 7 years and we have found them to be totally professional. The work is always completed to a high standard, on time and at a competitive price. ”

- Concept Building Services Ltd

We are committed to achieving the highest possible environmental ratings for each project

With a wealth of experience, Tyrrell Flooring can offer expert advice on sustainable product options, reducing waste to landfill, BREEAM green guide rating, recyclable content and overall carbon footprints.

We are a Lean company and therefore by our very nature, we reduce waste at every opportunity. We take a proactive approach to the environment and actively work with our suppliers, manufacturers and clients to reduce waste.

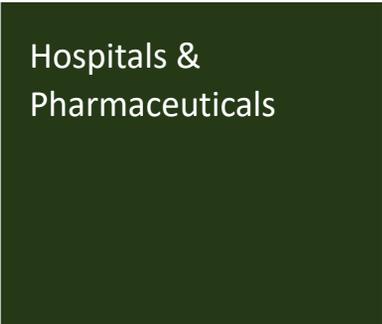

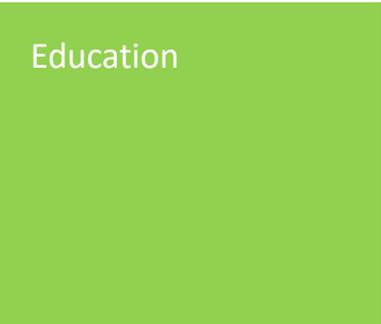

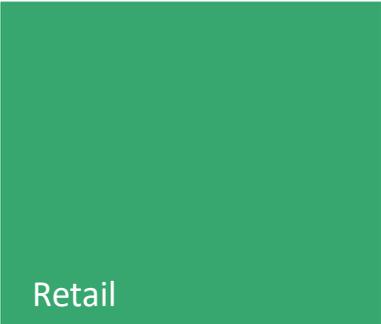

We take sustainability very seriously which is why we work towards ISO 14001 standards and are active members of the Flooring Sustainability Partnership.

“ We will build on our history and reputation by undertaking our activities in a sustainable and responsible manner that contributes to society as a whole.

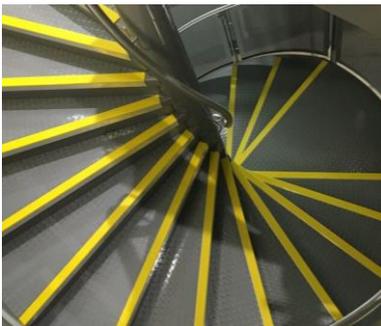

- Managing Director of Tyrrell Flooring

”

We have a wealth of experience working in many different sectors and environments

Don't just take our word for it, have a look at some of our work

“ I find Tyrrell Flooring to be professional, reliable and they always deliver outstanding work. We have worked for some very high profile clients and they have always been extremely happy with the output. ”
